Course Summary

This course will focus on all of the important aspects involved in the rehabilitation of those with a “terminal dentition” or the fully edentulous. Emphasis will be on the benefits and success of immediate loaded implants as part of the All-on-4™ treatment concept. Demonstration of the clinical steps and techniques that support successful results, both esthetically and biologically, as well as appointments and patient-flow, will be woven into the account of a successful practice.

Learning Objectives

1. Understand the surgical and prosthetic considerations of the All-on-4™ treatment concept.
2. Be familiar with impression and verification processes.
3. Know the “workflow” process and the necessary steps for a successful delivery.

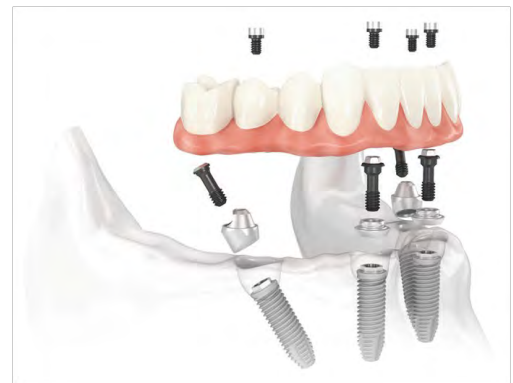

Attendees will receive

- Course material
- 2.5 Hours CE

Registration

RSVP to this event by contacting Ana

About the Presenter:

Dr. Ross graduated from the University of Iowa College of Dentistry in 2004. In 2007, he completed a Prosthodontics residency that focused on complex restorative, cosmetic, and implant dentistry. Dr. Ross has lectured nationally on the topics of cosmetic and implant dentistry. Prior to joining ClearChoice Dallas in 2013, Dr. Ross was in private practice and founded 2 implant centers—one in Colorado and one in Utah.
